Peter;

I will be available all day Tue and Wed, and Th until about 3pm. My other obligations are flexible on those days. I really am just feeling a need to better communicate with and get to know more contacts in the EPA Region IX office. I can give short (or boringly long) presentations on any or all of the following project in which I have been involved during the past couple of years.

Ohiapilo Wetlands, Molokai. Results of 3-Year monitoring and manipulation to fulfill consent decree requirements

Kawainui Marsh Results of USACE Supported Vegetation Survey and Plans for Construction of Bird Ponds

Kaelepulu Pond and Kailua Waterways: Challenges to restoring an urbanized estuary subject to State TMDL and City BMP studies.

Hilo Harbor Dredging Mitigation. Function and Value analyses leads to design of Artificial Reef to mitigate for loss of coral and fisheries resources.

Wetlands and Waters of the US survey of proposed Honolulu Mass Transit Right-of-Way  
 Remote and Real-time dust monitoring from multiple monitors surrounding a bridge construction site on Kauai

Results of 24/7 up-stream and down-stream water quality monitoring at a bridge construction site on Honouliuli Stream

If there are any in-house training events or seminars from which I might benefit, I'd be interested in attending.

Thanks

Bob

Ps. Not sure I've guessed Eugene's email correctly. If not, can you please forward. I've set a meeting time with him on Wednesday at 2pm.

**Subject:** next week in SFO

Aloha Bob! happy new year to you!!

so you are coming to town next week, and lingering until 1/21?  
 your suggested ideas for discussion etc. have stimulated my brain.  
 lemme check with colleagues to see which ones are most viable.

in the meantime, can you provide more specifics as to when you are gonna be most free during workday(s)?  
 thx.
